Website Voiceover Recording Script

All characters except Fannie

New section introductions, activity dialogue, and word-card recordings. Fannie’s voice lines stay in her separate script.

What to record

Part 1: new introductions and activity dialogue. Part 2: Heart Word recordings. The alphabet and number directions are in the separate handwriting script. Part 3 lists the voice lines already installed for reference; keep your chosen takes.

Recording notes

Read the spoken lines, not the labels. Leave three seconds of silence between clips. One continuous recording is fine. Keep one consistent voice for each character. For Heart Words, say each word only once, with no sentence or explanation.

Status

New introductions and new activity dialogue need your recordings. The new activities use browser speech for now. The maze reactions in this script are proposed additions; the current maze uses visual reactions and sound effects. Existing joke videos, songs, and read-aloud videos already carry their own audio.

Part 1 - New lines to record

Lowercase letters

Hanky | lowercase-intro

Let's make lowercase letters! Watch where I start. Some letters begin on the headline. Others begin at the belt line. Letters with long tails go into the basement below the boot line.

Uppercase letters

Hanky | uppercase-intro

Let's make uppercase letters! Start on the headline, or just below it for a curved letter. Watch each stroke, lift when I lift, and then try one yourself.

Number writing

Hanky | numbers-intro

Let's write numbers, from zero to nine! Watch where I start, listen to the words, and follow my pencil. Say the little number rhyme with me!

Heart Words

Cali | heart-intro

Welcome to Heart Words! Choose a deck and press Play. Say each word before the three seconds are up. With sound on, you'll hear the word once. Ready, detective?

Narrator | books-intro

Every Brentwood book has a new adventure waiting inside. Choose a story to read with your grown-up. Then talk about your favorite part together.

Meet the Buddies

Narrator | meet-intro

Every Buddy has something special to share. Choose a friend, hear their hello, and visit their favorite activity.

Cory's Inventor Nest

Cory | cory-intro

Welcome to my Inventor Nest! Our wagon needs a wheel that rolls smoothly. Can you choose a shape and help me test it?

Cory | cory-bumpy

Those corners make a bumpy ride! Which shape has a round edge all the way around?

Cory | cory-wheel

A circle! A round wheel can roll. Now tap the peg to hold it in place.

Cory | cory-peg

Click! The wheel is attached. Press Test the wagon and see what happens!

Cory | cory-roll

It rolls! You tested your idea and helped fix the wagon. What else could you invent with a circle?

Ronny's Story Lift

Ronny | ronny-story-intro

Welcome to my Story Lift! After you read Cali and Pudge's Christmas Adventure, help me put three big story moments in order. What happened first, next, and last?

Ronny | ronny-story-first

First, Cali and Pudge looked for a home on a cold night. What happened next?

Ronny | ronny-story-next

Next, Cali used her claw to open the latch, and they helped the other pets escape. What happened last?

Ronny | ronny-story-last

Last, Cali and Pudge found a loving home with the boy. You lifted the story into order! How did Cali and Pudge help others along the way?

Ronny | ronny-story-retry

Let's think about that moment. Did it happen before or after they left the shop? Try another card.

Oops teamwork

Narrator | teamwork-intro

Oops! A Buddy needs help. Choose a little job, bring in a friend, and watch what changes. You're part of the team!

Oops teamwork - wagon

Cali | teamwork-peg

The wagon is wobbling! I can see an empty hole beside the wheel. Tap the missing peg to help me find it.

Hanky | teamwork-plan

Good spotting! I'll hold the peg in place. Can you press it into the wheel?

Pudge | teamwork-test

The wheel is ready! Help me give the wagon a little push.

Oops teamwork - show

Fonzie | teamwork-show

My grand show needs a finish! Choose a musical note to invite Zee to help.

Zee | teamwork-joke

I'm here! Tap the star and we'll finish the show together. Ta-da!

Oops teamwork - repair

Ronny | teamwork-steady

A gentle lift will help. Hold the wagon steady while Cory fixes the wheel.

Cory | teamwork-fix

Thank you, Ronny! Tap the wheel and I'll fit the little peg. Tiny fixes can make a big difference.

Oops teamwork - Mayor

Mayor | teamwork-leaf

Why is everything green? Oh! There's a leaf on my glasses. Can you help Cali lift it away?

Cali | teamwork-clear

There it is! Tap the leaf. Now Mayor Owl can see his book again.

Oops teamwork - celebration

Narrator | teamwork-done

You did it together! Every Buddy helped in a different way. What could you do to help a friend today?

Pudding maze reactions

Pudge | maze-bump

I'm okay! Let's try a different path.

Hanky | maze-leaf

A surprise leaf! What a good find.

Fonzie | maze-unlocked

Every pinecone collected! Pudding, here we come!

Pudge | maze-not-yet

Oops! More pinecones are hiding. Let's find them all!

Pudge | maze-finish

Splat! I found the pudding, and the pudding found me!

Hanky | maze-hint

Let's look one step ahead. Follow the little trail, then try the next turn yourself.

Cory’s tips along the path

Cory | inventor-tip-0

A shiny bottle cap and a bit of string become the wheel of a tiny wagon!

Cory | inventor-tip-1

A bent spoon becomes a mirror to peek around a corner. Clever thinking, Cory!

Cory | inventor-tip-2

A ribbon and a twig become a bright little wind spinner.

Part 2 - Heart Word decks

Record the word once. Leave three seconds of silence, then say the next word. These follow the website’s current deck order. A word repeated in another deck can reuse the same recording. The child’s three-second response window comes before the spoken answer; do not put a three-second countdown into the voice file.

Pronunciation notes

Use “read” as “reed” for the word card. Use “live” as in “I live here.” Say “I” as the letter name. “Use” is the verb, as in “use a pencil.” Keep contractions natural: “I’m,” “you’re,” “we’ll.” Capitalization on the recording sheet does not change the spoken word.

Reference only - do not rerecord these unless you want a new take. This lists the current website wording; some selected performances have small wording variations. Keep the selected original audio and the corrected Fonzie edits.

Pudge | hello

I'm okay! That's okay. I'm okay! Wait—is that a pudding pinecone? Come help me find the rest!

Pudge | signature

I’m not chasing chaos. I’m adding enthusiasm.

Hanky | hello

Oh! Hello down there. I brought one pencil and seven backup legs. Let's make a letter!

Hanky | signature

Practice turns tiny steps into giant leaps.

Fonzie | hello

Ladies and gentle buddies! You're just in time for my grand entrance. Let's make some music!

Fonzie | signature

Life is better with music and good Buddies.

Zee | hello

Psst! I brought you a joke. It escaped! Let's catch another at the Giggle Factory.

Even tiny wings can change the wind.

Cali | hello

Hello, detective. I found a little clue in a book. Want to look closer?

Cali | signature

Small clues solve big mysteries.

Mayor Owl | hello

Welcome, young friend! A leaf has landed on my glasses. Would you help me find the page for your grown-up?

Mayor Owl | signature

No one holds the tree alone.

Cory Crow | hello

Oh, hello! I found a shiny shape. Would it make a better wagon wheel... or a rocket window?

Cory Crow | signature

With enough string and imagination, almost anything is possible.

Regal Ronny Eagle | hello

Hello there. Want to help me test the Welcome Rocket? I'll lift it gently. Very gently.

Regal Ronny Eagle | signature

The strongest wings lift others.

Welcome, map, and Giggle Factory

Uh-oh, a buddy needs help! Watch each friend arrive, and then see how they work together.

Fonzie | giggle-intro

Ladies and gentle buddies, welcome to the Giggle Factory. Turn the crank or choose a joke below.

Zee | giggle-tip

Wait for the funny part, then give the punchline your best big finish!

Workshop pictures and celebrations

Pudge | blank-template

No plan? Perfect. Let's see what happens!

Pudge | wagon-template

Let's build the Welcome Wagon for everybody!

Cory | rocket-template

A triangle nose and fins could turn our wagon into a rocket!

Hanky | turtle-template

A round shell and four little feet. Slow and steady can still be silly!

Cory | castle-template

Towers, walls, a door. What will your castle do?

Fonzie | bird-template

A bird! May I suggest a magnificent wing?

Pudge | dog-template

A dog? Is it me? Give him ears. Two ears!

Cali | cat-template

Fonzie | wagon-roll

Ladies and gentle-birds, the Welcome Wagon rolls!

Pudge | design-show

Ta-da! It wobbles! That means it's ours.

Shape names - optional separate recordings

Circle. Square. Triangle. Rectangle. Rounded rectangle. Oval. Diamond. Pentagon. Hexagon. Trapezoid. Parallelogram. Semicircle. Star.

The current workshop uses Cory’s approved shared “Try it in your design” recording. Recording isolated shape names would let us say the chosen shape before that prompt.

Giggle Factory confidence tips - optional additions

Zee | confidence-tip-1

Whisper the secret, then pause before “crack up!”

Zee | confidence-tip-2

Give your best too-full teddy face after the punchline.

Zee | confidence-tip-3

Let everyone hear the silly sound of “nacho.”

Zee | confidence-tip-4

Pretend you’re a droopy banana before the big reveal.

Zee | confidence-tip-5

Hang your hands upside down like little bat wings.

Zee | confidence-tip-6

Make “monkey” your most surprising word!

Zee | confidence-tip-7

Try telling this joke yourself. Leave a little pause before the funny part!

Ronny’s Meet-page introduction

Keep your existing Welcome Rocket greeting for now. There is no separate animated introduction clip for Ronny in the installed videos. If you want his hello to introduce the new learning page instead, record the following replacement. This proposed line has not replaced your approved recording.

Ronny | proposed new hello

Hello there! The strongest wings lift others. Ready to lift a story with me? Let's remember what happened first, next, and last!
